SUMMER by DESIGN

JUNE
8-17 TORONTO
2026 CANADA

LEARN ABOUT THE COMMERCIALIZATION OF REGENERATIVE MEDICINE

Canadian and international PhD candidates and post-doctoral fellows will learn to how to take regenerative medicine discoveries from bench to bedside at Summer by Design, an eight-day program located at the University of Toronto, hosted by Medicine by Design, CCRM's academic research division.

- ✓ Learn from experts across the technology translation continuum
- ✓ Explore Toronto's dynamic life sciences hub by meeting with industry, clinical and academic leaders in regenerative medicine
- ✓ Meet and collaborate with other Summer by Design participants, a diverse group of Canadian and international peers
